

SENEGAL

INTRODUCTION

The French began to expand onto the Senegalese mainland in the second half of the 19th century and made it a French colony. The French colonies of Senegal and French Sudan were merged in 1959 and granted independence in 1960 as the Mali Federation. The union broke up after only a few months. Senegal joined with The Gambia to form the nominal confederation of Senegambia in 1982. The envisaged integration of the two countries was never implemented, and the union was dissolved in 1989.
